State of the City

2025 Edition

This is the City of Stories

Norwich is a dynamic city at the heart of East Anglia. With a strong and diverse economy, Norwich continues to attract new residents, tourists, businesses and talent while retaining the distinct identity that makes it one of the UK's most liveable urban centres.

The city's population is currently estimated at 147,182, reflecting steady growth over the past decade. Major investment is reshaping key areas, most notably the £350 million Anglia Square regeneration, which will deliver 1,100 new homes, new retail and leisure spaces, and create more than 3,500 jobs. This development demonstrates the city's ambition to grow sustainably and inclusively.

Norwich's strengths lie in its balance of scale and opportunity. It offers a thriving cultural scene, a high quality of life, and an economy that supports innovation across sectors including digital and creative industries, advanced manufacturing, education and health. The city's strategic location, connectivity and skilled workforce position it as a regional centre for growth and collaboration.

This report provides an overview of Norwich today, presenting data on the city's economy, population and business landscape.

Norwich is recognised as having one of the most environmentally friendly commutes in the UK, ranking third nationwide

»»» Growth Sectors

Creative and Digital

Norwich's creative, digital and tech industry is booming, with digital tech businesses at the heart of our region's growing economy.

The University of East Anglia and Norwich University of the Arts play a big role in the success of this industry, as well as the dynamic, innovative and supportive tech community in the area.

Food and Drink

The Norwich food and drink sector encompasses research and development, agriculture, and food production. Central to this sector is the Food Enterprise Park, a 100-acre development site that hosts the Broadland Food Innovation Centre. Local produce is prominently featured at the Norfolk Foodhall on the Norfolk Showground, which showcases hundreds of local producers.

The Tastebuds collective, based at the Norwich Research Park, actively facilitates collaboration opportunities within the food and drink community.

Financial Services

The Financial Services sector in Norwich has been home to Aviva, one of the UK's largest insurance centres, for over 200 years. As a result, Norwich is the #1 InsurTech hub outside of London.

The sector is home to 24 active FinTech firms, which have collectively raised £49 million in investment to date. Notably, 17% of these FinTech firms are female-founded, the highest percentage in England. The sector contributes over £1 billion in Gross Value Added annually, with a forecast to reach £100 million by 2027.

Norfolk is home to
5.9% of the UK's
games workforce

Advanced Manufacturing

The county's robust Advanced Manufacturing and Engineering sector comprises 2,150 companies, contributing a substantial 2 billion in Gross Value Added with Norwich being a significant contributor.

This is bolstered by Productivity East, a regional hub for manufacturing, engineering, and technology based at the University of East Anglia, and the support of the NAAME (New Anglia Advanced Manufacturing and Engineering) cluster.

Life Sciences

The Norwich Research Park is one of Europe's largest single-site life sciences clusters, recognised for world-leading research across food, environmental sciences, genomics, and health.

This hub possesses key expertise in AgriTech, BioTech, MedTech, ClimateTech, and Health Innovation, supporting a cluster workforce of about 15,000 in Greater Norwich.

The Park is strongly supported by major funding, including a £163.9 million grant for the **John Innes Centre**, Quadram, and Earlham Institutes, with significant growth planned for the next decade.

Did you know?

Norwich Research Park is home to one of the largest concentrations of microbiologists on a single site in the world
